AMIT MAURYA

Email: eramit4994123@gmail.com | **Phone:** +91 9336993748 | **Location:** Varanasi, Uttar Pradesh, India

PROFESSIONAL SUMMARY

Result-driven **Full-Stack Engineer** with **3 years of professional experience** specializing in secure **Fintech solutions, robust Payment Gateway integrations, and scalable Web Applications**. Expert in architecting backend systems using **Laravel, PHP, and MySQL**, while building dynamic, high-performance frontends with **React and Vue.js**. Proven track record in API security (JWT, AES), encryption modules, and database optimization. Recipient of the **Employee of the Year (2024)** award for driving core product engineering.

TECHNICAL SKILLS

- **Backend:** PHP, Laravel, CodeIgniter
- **Frontend:** React, Vue.js, JavaScript (ES6+), HTML5, CSS3, Bootstrap
- **Databases:** MySQL (Query Optimization, Schema Design), PostgreSQL
- **Fintech & APIs:** Payment Gateway Integration, RESTful APIs, Biometric API Integration, JSON
- **Security & Auth:** JWT, API Keys, AES, Symmetric & Asymmetric Encryption
- **Tools & DevOps:** Git, GitHub, Apache, Ubuntu (Linux), Postman, Composer

PROFESSIONAL EXPERIENCE

Web Developer | *Easy Digital Village Softtech Pvt. Ltd.* | **Mar 2026 – Present**

- Architecting and scaling high-throughput enterprise backend APIs using Laravel and PHP to support growing financial transaction volumes.
- Developing modular frontend interfaces with React/Vue.js, reducing page load times and enhancing user retention by 20%.
- Maintaining and refactoring core production applications, ensuring 99.9% uptime through efficient bug fixing and code optimization.

Web Developer | *Practomind Solutions Pvt. Ltd.* | **Mar 2024 – Mar 2026**

- Engineered secure, high-performance REST APIs using Laravel and integrated multiple domestic/international **Payment Gateways**, securing financial transactions.

- Implemented bulletproof data security using **JWT, API Keys, and AES Encryption (Symmetric/Asymmetric)** to eliminate payload vulnerabilities.
- Integrated complex **Biometric APIs** for user authentication, boosting platform security and reducing unauthorized access attempts.
- Optimized complex MySQL queries and indexing, which reduced database response times by 35%; actively mentored 3 junior developers.
- *Key Achievement:* Awarded **Employee of the Year (2024)** for exceptional ownership and core product delivery.

Web Developer | *Easy Digital Village Softtech Pvt. Ltd.* | **Sep 2023 – Mar 2024**

- Engineered core backend modules and business logic using PHP and CodeIgniter/Laravel frameworks.
- Built and documented reusable RESTful APIs for seamless third-party service integrations.

PROJECT HIGHLIGHTS

- **Financial Transaction & Payment Platform:** Built a secure Laravel backend handling concurrent webhooks and payment states, featuring automatic transaction retries and automated ledgers.
- **Biometric Authentication System:** Developed an isolated authentication service integrating hardware biometric APIs with JWT-based session security.
- **Enterprise REST API Suite:** Designed and deployed a scalable API ecosystem supporting multi-tenant architectures and complex JSON data parsing.

EDUCATION

- **B.Tech in Mechanical Engineering** | Feroze Gandhi Institute of Engineering & Technology | *Graduated: 2016*

LANGUAGES

- Hindi (Native), English (Professional Working Proficiency)
